

# How long does it take to get Genomically Enhanced EPDs?

NOV 3<sup>RD</sup>, 2025

Create DNA kits or email Sarah @ AICA with P/Registration Numbers, desired testing, and barcodes (if applicable)

NOV 10<sup>TH</sup>, 2025

Sample arrives at the lab. Everything matches to what was submitted through AICA. \*\*Easiest way to get faster turnaround time

DEC 10<sup>TH</sup>, 2025

Samples finished at lab and results sent to AICA. Not received in time for Dec 1st EPD release.

We estimate a 3-5 week turnaround.

FEB 2<sup>ND</sup>, 2026

Genomically enhanced EPDs released.

NOV 1<sup>ST</sup>, 2025

Collect DNA samples using tissue tubes, blood cards, hair cards, or semen straw.

NOV 6<sup>TH</sup>, 2025

Mail samples to desired lab. We strongly recommend to track your package.

DEC 1<sup>ST</sup>, 2025

Performance and Genotype data results must be in for evaluation for Dec 1 release.

JAN 1<sup>ST</sup>, 2026

Performance and Genotype data results must be in for evaluation for Jan 1 release.
