# AM I FULL OF CRAP?

Calf scours are not inevitable. A strong prevention program is non-negotiable. Dependable scour prevention is essential for calf welfare, employee morale and business profitability. The immune system's response to vaccination is variable and unpredictable. That's why giving preformed antibodies instead of relying on a vaccine to stimulate antibody production is so important. I'm all for removing uncertainties. So yes, I stand by this product. (And no, I'm not.)

*Marissa Hake, DVM*
